

## 2nd Annual Alaska Combined Federal Campaign

September **Fall Newsletter** 2009

**To the world you may be just one person, but to one person you may be the world!**

### **Alaska CFC Kickoffs**

This year the Alaska Federal workforce enjoyed two fabulous Kickoffs! The first was held in Anchorage on September 17, 2009, and offered lunch and a wealth of giveaways. The second was held in Fairbanks on September 18, 2009, and had wonderful desserts and many giveaways. Both locations came away with many smiles and a lot of winners!

A big thank you needs to be given to the many volunteers and businesses in our state that helped to make the Kickoffs possible. Without volunteers, the Alaska CFC would not be an effective campaign since we are challenged with having the largest geographic region of all CFCs. As well as, federal volunteers make this campaign more lively, imaginative, and exciting. Thank you!

We would also like to thank all of the businesses that offered their support to the campaign. Without their help we could not have delivered such fantastic Kickoffs.
